SIR,

I have the honour to submit herewith for information of Government the file of correspondence ending with letter No.660 of the 12th ultimo received from the Superintendent of Government Press in the matter of binding 26 Scientific Journals for which he requires Government sanction under clause iii of Government Order No.G.3267-3304/G.M.153 of 03-04 of the 14th December 1904 as he is of the opinion that the request for binding is an unusual demand which was not anticipated. I may state that our Journals have from the start been bound in the Government Press and the number of volumes bound there during the past four years under clause ii of the Government Order adverted to above is given in the margin. It will thus be clear that there is nothing unusual in the demand made on the Press for the binding of 26 volumes during the year. Moreover uniformity of binding and good quality of work are very necessary for books of this Library as several of the

books have plates and illustrations. However as the Superintendent, wants it I request you to kindly obtain Government sanction.

I have the honour to be,

Sir,

Your most obedient servant,

Offg. Director of Agriculture.
